Hi Ayn!

I had to make a few adjustments and wait for the files to appear live on the FTP site. But the Pavillion home page is now published. How does it look?  
<http://www.epa.gov/region8/superfund/wy/pavillion/>

Thanks,  
Tim

Jim, we are proposing that we update the incorrect schematics for the monitoring wells that are currently on our Pavillion website, preferably today so that accurate and current info is available to the USGS as they prepare for their Congressional briefing which will occur on Thurs., as well as to all of the other interested stakeholders. USGS' presentation planned for Thurs still contains incorrect slides that will fuel the misinformation regarding construction of the wells.

Guys - my mind is elsewhere today and I am out until tomorrow. What action are we proposing for MW? I cannot remember.

Jim
